## Happy New Year

On my own behalf and on behalf of National  
Union of Postal Employees Postmen Group 'D'/  
MTS CHQ and also from FNPO wish you all a  
Happy New Year 2015.

The year 2014 created a political history by  
electing majority Government of a particular  
ideology of RSS on the name of BJP.

Our Prime Minister Hon. Shri Narendra  
Modi Government is going fast with hand-to-  
hand with big business stalwarts like Ambani,  
Godrej, Jindal, Adani in the name of make in  
India for growth of industry.

But unfortunately, hidden agenda seems to  
be of privatisation of Government Departments  
like Railway, Posts not only this but in  
manufacturing of defence weapons foreign  
companies are being permitted to invest.

For Postal Department Task Force  
Commission was constituted and report of that  
Commission has already been submitted to the  
Ministry of Communication and IT.

This Task Force recommended bifurcation of Postal Department into 5 to 6 Corporation with Post Bank of India and others.

If this report is accepted and implemented the Postal Department will go to graveyard.

We should fight to save the Department from Privatisation and Corporatisation. However, once again wish you all a Happy New Year.

## नववर्ष अभिष्ट चिंतन हैपी न्यू इयर

मैं अपनी ओर से तथा नैशनल यूनियन पोस्टमैन ग्रुप डी MTS और FNPO की ओर से आप सभी को नववर्ष के लिए शुभकामनाएं देता हूँ।

पिछला वर्ष 2014 भारत के लिए एक इतिहास सिद्ध हुआ प्रथम बार भाजपा ने अपने अकेले के बलबूते पर सरकार बनाई।

हमारे आदरणीय प्रधानमंत्रीजी ने चुनाव प्रचार में विकास के मुद्दे पर तथा अच्छे दिन के सपने दिखाकर भारी बहुमत हासिल किया।

किंतु 8 माह के सरकार की उपलब्धियों पर नजर डाले तो निराशा ही दिखती है।

किंतु अंबानी, गोदरेज, अदानी, जिंदाल ग्रुप ऑफ कंपनी के लिए यह सरकार एक वरदान साबित हो रहे हैं।

सरकारी कर्मचारियों के लिए कोई नीति-निर्धारण नहीं हो रहा है। किंतु निजीकरण तथा कार्पोरेशन का खतरा मंडरा रहा है।

डाक विभाग के नूतनीकरण तथा विस्तारीकरण के लिए टास्क फोर्स का गठन किया गया है, इस टास्क फोर्स ने अपनी रिपोर्ट डाक विभाग मंत्रालय को सौंप दी है।

इस रिपोर्ट में डाक विभाग को छह कार्पोरेशन में बांटा गया है। विशेषता यह है कि पोस्ट बैंक ऑफ इंडिया प्रस्तावित की गयी है। PLI और RPLI के लिए स्वतंत्र कार्पोरेशन (इन्शुरंस) प्रस्तावित किया गया है।

इस रिपोर्ट में और भी चार कार्पोरेशन का प्रस्ताव है। सालो पुराना डाक विभाग खत्म कर दिया गया है। हमें टेलीफोन विभाग के स्तर पर लाकर खड़ा कर दिया गया है।

यह रिपोर्ट सरकार के विचाराधिन है। हमें सब मिलकर इस रिपोर्ट के खिलाफ खड़ा होना है, और डाक विभाग को कार्पोरेशन होने से बचाना होगा। वरना हमारी हालत टेलीफोन विभाग के कर्मचारियों जैसी होगी। एक बार फिर आप सभी को नववर्ष की शुभकामनाएं।

## New Year Message from Secretary (Posts)

Department of Posts  
Ministry of Communications and Information Technology  
Government of India

### New Year Message

Dear colleagues,

With the advent of the New Year, I would like to extend my heartfelt greetings for the season. I would also like to convey my appreciation to each one of you for your hard work and achievements in the last one year. 2014 has been a great year for the Department of Posts.

We have networked more than 26,552 Post Offices, Mail Offices and Administrative Offices, and set up the single largest WAN in the country. We have also rolled-out CBS in 1436 Post Offices, completed the Disaster Recovery Centre at Mysore, and signed the contract for supply and maintenance of mobile devices, with connectivity, in the Branch Post Offices. This would not have been possible but for your support and dedication, and the extra hours that you put in to achieve these milestones.

The coming year will see considerable progress on various fronts, including completion of some major components of the IT Modernization Project. Together we shall strive to complete CBS and Core PLI roll-out in our Departmental Post Offices, commission the Mobile devices in Branch Post Offices, and migrate to the integrated new software platforms for Post Offices, Mail Offices, Postal Accounts Offices, and Administrative Offices, and for the branch Post Offices. 2015 is, therefore, going to be a watershed year for the Department of Posts, as we step up our capabilities to handle emerging market needs and new business opportunities. The focus must remain on our customer, and on achieving and exceeding our revenue targets. I have no doubt that, with your commitment and determination, we shall achieve success in all our endeavors to improve service delivery and build a brighter future.

I thank you once again for your support and commitment, and wish you and your families a very happy New Year.

## **Stop Privatization and Corpportization of Department of Posts in Interest of Nation**

***“Report of the Task Force on leveraging the post office network:  
Empowering Rural India.”***

Government of India through its memo F.No 84-04-2014-Coord/O&M Government of India, Ministry of Communications & IT Department of Posts dated 21 August 2014 constituted a Bureaucratic Task Force devoid of peoples representative and representatives of trade union, representatives of society with following objectives;

1. To transform the post office network in keeping with changing market trends and competition.
2. It will include rationalization of the network with focus on mail/parcel services particularly in rural areas, up gradation of infrastructure/technology incorporating global best practices, introducing new services and participation of multiple players. The task force agrees with the mandate of parliament that department of posts is delivering public goods with a social purpose. Department of Posts has commitment to provide universal service obligation i.e. inexpensive and efficient communication will be available to everyone as a social service. Worries of Task Force
  - Escalating losses every year & Subsidizing losses to department of posts.
  - Spread of technology, literacy, mobile, internet connectivity in rural areas etc to remote corners of the India making services of India post less important and unviable.

---

**Critical Issues which need further wider discussion and debate.**

1. Task force committee fails to take note of the point that at no point of time in history of 150 years, Department of posts was never given a mandate to earn profit or to act as centres of profit. Keeping in view the pace of economic development and grinding poverty in country side Parliament in public interest has allowed department of posts to offer most of its services at prices which have remain unchanged for decades and are intrinsically not covering costs for ex rates of registered letter, rates of post cards, rates of parcels etc. Indian Parliament from the day of Independence consisting of learned representatives and experienced peoples representative & 16 popularly democratically elected government never opined neither verbally nor orally i.e. department of posts should be profit earning and commercially oriented organization. Planning Commission, National development council and past 14 Government of India have only emphasized on efficiency of public delivery of goods for social purpose as the main goal of department of posts.
2. Department of Posts since its constitution has been a department to serve the postal needs of people and help in cultural commingling as well as promoting fraternity and cultural interaction.

Members of task force neglecting the mandate of parliament are trying to create new goals for department of posts to earn profit which itself is misdirection and misguided goal. Does essential services like health, education, law order, defence and communication are devised to earn profit or to maintain the services in larger interest the nation? Task force in its report is less concerned over the transforming network of department of posts. It writes vaguely that for establishing post offices in villages postal department should contact district administration and local authorities of state government. Experience states that most of the time District Collectors are not even willing to listen to their counterpart postal authorities like SSPO SPOs SSRMs SRM regarding any request from land or space. State government in a federal set up are reluctant to entertain any request of postal department regarding space, transportation security etc.

3. Task force seems to be disproportionately more worried with the loss of nearly 6000 crore per annum of Department of Posts when Government of India is investing 100000 crore per year in social welfare schemes like MNREGA, in which more than lakhs crores Rupees have been siphoned by corrupt officers and corrupt politicians giving poor results.
4. Moreover amount of subsidy which Government of India is providing to various Governments owned Company PSU and Corporations should be taken into account to judge the model of corporations versus department.
5. If we take a note of those organizations of Government of India which have a mandate to operate on commercial lines like Ministry of Commerce, Directorate

---

of foreign trade, Ministry of Corporate Affairs various PSU and corporation. Reality of the day is in spite of all the efforts balance of foreign trade for the country is still negative more imports and fewer exports. Many recently corporatized organizations like BSNL are now in bad shape not only commercially but efficiency wise also. Therefore transformation to corporations PSU and companies may not prove efficient and profitable in long run. Many companies and corporations rise and fall like winter wheat in ever increasing market wars. Social Service and public service departments cannot be mandated to transform themselves to earn profit or to compete in market with private players who neither follow labour laws and who violate law of the land for earning profit. Goal of a government department can't be similar to goal and ethics of a shop keeper or a private profit seeking enterprise. Goal of postal department is providing efficient postal services which it is providing in inaccessible areas where no rail road has still reached.

6. Task force committee without any reason is sceptical that the Postal Services cannot be managed efficiently by Government Department when in task force committee in the report has admitted that Department of post is still the best service provider in the country in comparison to other couriers pg no 12 of the report. ' It is worth mentioning that a comparative survey of services provided by the top 5 ecommerce courier companies in India by Shopinx e commerce, a portal offering online e commerce IT platform has rated India post as the best service, followed, in that order by Blue dart, fedex, aramex & DTDC".
7. Another worry of task force is that services of department of posts will be redundant with inroads of technology, mobile internet and spread of e services in rural remote areas. However Task force committee has failed to take a note that spread of such technologies and reform have already institutionalized in western European countries like France, UK, Switzerland, USA, Germany etc a decade earlier still government owned department of posts is doing well in these countries even till date.
8. As a matter of policy many governments view postal services as a public good justifying subsidy and prefer to offer them to the general public discounted rate like USA, UK, France, and South Africa China.
9. Task force committee fails to see and recommend any solution for acute shortage of manpower, shortage of infrastructure, pathetic condition of rented post offices, 90% post offices are operating in private poor buildings. State Government neglect the requests and demand of postal authorities regarding land, accommodation, transport and security.
10. For any developing welfare state like India public services, delivery of public goods with social purpose for common man should not be viewed from commercial angle but should be taken into account from angle of public services and social good.

- 
11. Task force committee has failed to take into account that Department of Posts has no experience of corporate functioning as a result the holding company will continue to incur loss and may face closure very soon.
  12. Another amazing fact is that task force committee is expecting inhuman task from Postmaster, Sub Postmaster, Branch post Master and GDS to cater to the orders of five strategic business unit while attending to the need and call of local public. Is it possible technically we have to study and do some real insights? Hope that all these strategic business units shall be in profit in a short period is expecting too much in present scenario of inflation, rising costs and daily mushrooming private couriers only operating between metropolis only for the sake of profit.

Philosophy of market driven profit and ethos of public service, public delivery of social goods are poles apart. Two ideologies can not be clubbed together neither operationally nor functionally. Therefore it is better to let the Department Of Posts continue with its present structure, purpose and organization. Aim of any Government Department cannot be to earn profit. Government collects taxes to meet its expenditure. It shall be against the business allocation rules and constitutional mandate to direct department of Posts to earn profit. Therefore while taking into the losses or subsidies of department of India post task force committee should also take into account the public services and social goods which department has delivered to 121 crore people across length and breadth of country respectively in following fields.

- i. Army postal service needs of Armed forces posted on border
- ii. Postal retail export and import through parcels. Foreign post offices helping people to export and import and earning in international currency.
- iii. Meeting social needs of masses by delivering passport ATM cards cheque book admit card appointment letters court notices of both private and government agencies.
- iv. Catering to the Banking needs of those people where rail roads and modern city life is still a distant dream. Helping poor people to save.
- v. Postal and Rural Postal life Insurance needs of rural masses and people in government services.
- vi. Money transmission needs emo, imts etc
- vii. Passport services
- viii. RTO services. Delivering driving licenses to door.
- ix. Election commission postal ballots.
- x. PRS tickets.
- xi. IGNOU postal course materials.
- xii. RTI
- xiii. Legal notices
- xiv. Court summons

---

xv. Wedding cards

Are few of the social goods which department posts delivers therefore our constitution makers have kept post offices in union list and made central government of the day with the task to keep this institution intact and vibrant. Social and public goods are far more important than subsidies. Subsidy is public money which is used for public purpose a social and public good.

Following points of Task Force Committee are worth appreciation.

1. E-education, E health care services could be given through digitally enabled post offices empowering people.
2. 100% financial inclusion and insurance inclusion should be targets of Department of posts. Central Government should allow post offices to open accounts under scheme of Jan Dhan Yojana. Central and State Government should on priority basis use the network of post offices to provide crop insurance, general insurance, health insurance and disbursement of social security schemes through post offices. It will save travelling cost and time of rural masses. It will bring more transparency accountability and efficiency in implementing social welfare schemes.
3. Pension liabilities of department of posts should be waived off and should be taken on by Central pension office of government of India like other departments.
4. Need to create jobs to the tune of 500000 within three to five years is also acceptable once the department expands and strengthens its network.
5. Post Bank of India should be a National Bank only after entire 100% successful CBS implementation in all the post offices of India. It should have statutory backing of parliament but it should be within Department of Posts administered by Secretary Posts to make it a real national bank in letter and spirit which should empower people and cater to the goals of 100% financial exclusion.
6. Department of post should increase its efficiency, quality of services and output. Definitely India Post should minimize losses and should take new initiatives to empower and help people making significant contribution in national growth.
7. Services of village postman could be taken in verifying KYC information for credit worthiness of individuals. Banks have to expend considerable time and resources in obtaining and verifying the KYC information relating to their customers.
8. International obligations under UPU to provide basic postal services at affordable prices throughout the country for 6 days a week. The universal service obligation (USO) adopted but the UPU in 1999 includes accessibility of service 'quality including speed, reliability and security.
9. Government of India understandably considers postal services as essential public services and provides them subsidies as a matter of policy. Moreover subsidies have been marginal to the tune of Rs 5683 crores out of which 90% goes for payment of wages. 4000 crore for pension disbursement should be done by central pension office which is practice like in other Central Govt Departments.

- 
10. Post office should be member of clearing house.
  11. Department of posts should find ways and means to bring in innovative products and services to help people and make itself financially more self sustainable in coming years.
  12. Need of diversification of products and services like offering services for verification of KYC, creating data base of all the citizens of India and its socioeconomic use in planning and disbursing social good.
  13. Department of Posts can create a Global Division to tap foreign markets and further push retail export and import. Global Division could be given some special liberty for promoting international trade of India through means of retail export and import.
  14. Need of hour is investment in post office and postal infrastructure strengthening postal network by recruiting computer literate village youths as Gramin Dak Sewaks, recruitment of PA SA IP ASP Postman etc and training of manpower so that emerging market of ecommerce could be tapped.

Need of hour is to use postal network for delivery of other public services and other kind of public goods related with social welfare schemes, relief material collection from public and delivering it to disaster site for free of cost delivery as it happened during Uttaranchal flood disaster. There is no need at all to make India Post a holding company with 5 strategic business units. It is very confusing and very demoralizing for the entire staff of India Post to serve in a company or corporate. It is a matter of prestige and honour for every staff to serve in Department of Posts under direct command and control of Director General of Posts. Naturally demotivated and demoralized staff may not be able to handle operations of corporation and company. Therefore from very early stage all strategic business units including holding company shall start making loss with poor efficiency. Very soon government will close all these units in wake of poor efficiency and losses. Painfull process of retrenchment and downsizing of department will be order of day. Public of country will suffer due to declining efficiency and multiple command centre. Postal Network will shatter into pieces and will rot if corporation and company part of the task force of the committee will see the light of the day. India post will cease to exist very soon the day it's made corporation. Need of the hour is to expand Global Division of India Post and promote export and import through parcels. Let every individual manufacturer, weaver, artisans, farmers have the opportunity to participate in international trade through parcel export and import.

Let postal department be facilitator of retail export and import in coming days making Indian economy and Indian society prosperous with international currency.
